for use...*

# Oral Healthcare Can't Wait™

## Patient Education Poster

Customize by adding your practice's logo, name and phone number where indicated on the lower portion of the poster.

Print and prominently hang in your operatory where patients will see and read. You may also consider reaching out to local area businesses, asking for their support of your practice's Oral Healthcare Can't Wait effort, asking that they display the posters on their walls, bulletin boards, storefront windows, etc.
